

Internship Position in Projects Acquisition Support

About the Organization

The Center of Partnerships for Development (GlobalCAD) is a global network of experts committed to human and sustainable development sharing the common belief that promoting partnerships is a necessity if we are to find innovative and durable solutions to global challenges. GlobalCAD services include research, strategic advice, technical support, training and capacity building in the areas of cross-sector partnerships, promoting SMEs and inclusive business, green economy and climate change, and aid efficiency and evaluation.

The team has long-standing work experience with a variety of clients including international organizations, governments and bilateral development agencies, non-governmental organizations, private and philanthropic organizations. One of GlobalCAD's key area of expertise is results-oriented gathering and management of information, identification of stakeholders and development of comprehensive action plans, and evaluation & monitoring. Experts have more than 20 years of experience in developing monitoring and evaluation mechanisms for international cooperation projects and programmes.

GlobalCAD cares about its team members' development and success. All employees and interns are expected to be fulfilled through their work and their contribution to sustainable solutions to human development needs.

If you are a proactive person, eager to learn and interested in developing your career in the field of Development Cooperation, the Centre of Partnerships for Development (GlobalCAD) offers you the opportunity for an internship position in Technical Support in a competitive organization and committed team.

We are looking specifically for two interns with the following **requirements**:

- > Studying a master's degree.
- > Having a bank of 20-25 hours a week to dedicate to practical training in GlobalCAD.
- > Fluent in Spanish and English (oral and written). Mastering another language will be a plus (especially French).
- > Capacity for organization and planning.

Specific Responsibilities

The work shall consist of performing the following tasks:

- > Support for project acquisition.
- > Support the writing of expressions of interest and proposals.
- > Support for identification of opportunities for GlobalCAD's projects.
- > Participation to the improvement of projects acquisition's quality within GlobalCAD.
- > Support for the Creation, improvement and update of GlobalCAD's tools for projects acquisition (references, CVs, methodology...).
- > Research support.
